UGIR PLATFORM

Design System & UI Prompt Brief

For Antigravity — UI Generation Reference

Attached: This document accompanies the full UGIR PRD (12-page Product Requirements Document) for the Unified Grievance Intelligence & Resolution Platform by Code Yodha. Use this color system and the UI prompt on Page 3 when generating the interface in Antigravity.

Team	Code Yodha — Alina Khan, Tanay Patil, Awwab Mhiaskar
Platform	Unified Grievance Intelligence & Resolution Platform (UGIR)
Hackathon	NIRMAN — Amity University Mumbai
Domain	GovTech / Web Development
Theme	Civic Trust — Authoritative, Accessible, Data-Dense

SECTION 1: Official Color Palette

These are the exact colors used in the UGIR PRD document and must be applied consistently across all UI screens generated in Antigravity. The system is built around a civic trust aesthetic: deep navy authority, electric blue interaction, and functional semantic colors for status and data.

Primary Colors — Brand Core

Swatch	Hex Code	Name	Design Role	Where to Use
	#1E3A6E	**Government Navy**	Primary Brand / Page Headers	Main page headers (H1 background), nav bar background, hero section background, sidebar dark mode
	#1B3A6B	**Deep Navy**	Brand Anchor	Footer background, modal overlays, badge backgrounds on dark surfaces
	#2563EB	**Civic Blue**	Primary Action / Interactive	Primary buttons (CTA), active nav links, hyperlinks, focus rings, progress bar fill, chart primary series
	#3B5FA0	**Steel Blue**	Secondary Brand	H2 headings, H3 subheadings, secondary badges, table row labels, icon color on light backgrounds

Accent & Semantic Colors

Swatch	Hex Code	Name	Design Role	Where to Use
	#0EA5E9	**Sky Accent**	Highlight / Live Data	Realtime indicators, live badge pulse, data chart secondary series, hover states on dark backgrounds, selected state ring
	#16A34A	**Resolution Green**	Success / Resolved	Resolved status badge, SLA met indicator, proof verified checkmark, AATS high score bar, success toast

	#D97706	**SLA Amber**	Warning / At Risk	SLA warning (2hr remaining), medium priority badge, pending_human_review status, 'at risk' KPI card border
	#DC2626	**Breach Red**	Critical / Emergency	SLA breached badge, Priority 5 CRITICAL label, emergency ticket border, AATS critically low alert, error toast

Background & Surface Colors

Swatch	Hex Code	Name	Design Role	Where to Use
	#EFF6FF	**Cloud White**	Page Background / Card Surface	Page background, card fill, complaint form surface, citizen dashboard card background
	#DBEAFE	**Mist Blue**	Secondary Surface / Callout	Callout boxes, info panels, selected table row highlight, map legend background
	#BFDBFE	**Soft Border**	Border / Divider	All table borders, card borders, input field borders, section dividers
	#F8FAFC	**Near White**	Table Row Alternate / Input BG	Alternating table rows, text input background, sidebar item hover
	#FFFFFF	**Pure White**	Text on Dark / Icon on Dark	Body text on navy/blue backgrounds, icon fill on dark surfaces, button text on primary buttons

Text & Neutral Colors

Swatch	Hex Code	Name	Design Role	Where to Use
	#111827	**Near Black**	Primary Body Text	All body copy, paragraph text, table cell data, form labels

	#6B7280	**Slate Gray**	Secondary / Metadata Text	Captions, timestamps, placeholder text, metadata labels, secondary descriptions
	#0F172A	**Code Background**	Terminal / Code Blocks	Backend logic callout backgrounds, query blocks, prompt template displays

Color Role Summary — Quick Reference

UI ELEMENT	COLOR NAME	HEX
Page / Section Headers (H1)	**Government Navy**	#1E3A6E
Primary CTA Buttons	**Civic Blue**	#2563EB
Section Subheadings (H2, H3)	**Steel Blue**	#3B5FA0
Live / Realtime Indicators	**Sky Accent**	#0EA5E9
Resolved / Success States	**Resolution Green**	#16A34A
Warning / SLA At-Risk	**SLA Amber**	#D97706
Critical / Emergency / Error	**Breach Red**	#DC2626
Page Background	**Cloud White**	#EFF6FF
Card / Panel Surface	**Cloud White**	#EFF6FF
Callout / Info Panel	**Mist Blue**	#DBEAFE
Input Field Border	**Soft Border**	#BFDBFE
Body Text	**Near Black**	#111827
Metadata / Captions	**Slate Gray**	#6B7280
Nav Bar / Footer	**Government Navy**	#1E3A6E
Active Nav Link	**Civic Blue**	#2563EB
Hover State (Dark BG)	**Sky Accent**	#0EA5E9
Chart — Primary Series	**Civic Blue**	#2563EB
Chart — Secondary Series	**Sky Accent**	#0EA5E9
Heatmap — Active Cluster	**Breach Red → SLA Amber gradient**	#DC2626 → #D97706

Heatmap — Silent Crisis	**Slate Gray pulsing**	#6B7280
Heatmap — Resolved	**Resolution Green faded**	#16A34A at 40% opacity

SECTION 2: Typography & Design Tokens

Typography System

ELEMENT	FONT	SIZE / WEIGHT	COLOR & NOTES
Page Title (H1)	*DM Sans or IBM Plex Sans*	32px / 700	#FFFFFF on #1E3A6E background. All caps or title case.
Section Heading (H2)	*DM Sans*	22px / 700	#1E3A6E. Bottom border underline in #2563EB.
Sub-heading (H3)	*DM Sans*	18px / 600	#3B5FA0. No underline.
Body / Description	*IBM Plex Sans*	14px / 400	#111827. Line height 1.6.
Labels / Captions	*IBM Plex Sans*	12px / 400	#6B7280. Uppercase tracking for field labels.
Badge / Status Text	*IBM Plex Sans*	11px / 700	#FFFFFF on semantic color. All caps.
Data / Numbers (KPI)	*IBM Plex Mono*	28–40px / 700	#1E3A6E for neutral, semantic color for status KPIs.
Code / Queries	*IBM Plex Mono*	13px / 400	#E2E8F0 on #0F172A background.
Nav Items	*DM Sans*	14px / 600	#FFFFFF on #1E3A6E. Active: #0EA5E9 underline.
Button Text	*DM Sans*	14px / 700	#FFFFFF on #2563EB (primary). #1E3A6E on #DBEAFE (secondary).
Table Header	*DM Sans*	13px / 700	#FFFFFF on #1E3A6E.
Table Cell	*IBM Plex Sans*	13px / 400	#111827 on #F8FAFC alternate rows.

Spacing & Border Radius Tokens

TOKEN	VALUE	WHERE USED
--radius-sm	**4px**	Badge pill, input field corners, small tag
--radius-md	**8px**	Card corners, button corners, modal corners
--radius-lg	**12px**	Dashboard panel, heatmap sidebar panel
--radius-xl	**16px**	Hero section cards, large stat panels
--space-xs	**4px**	Icon-to-label gap, badge internal padding

--space-sm	**8px**	Form field padding, list item spacing
--space-md	**16px**	Card internal padding, section gap
--space-lg	**24px**	Between sections, column gap in dashboard
--space-xl	**40px**	Page horizontal padding, hero section margin
--shadow-card	**0 1px 3px rgba(0,0,0,0.08)**	All card/panel components
--shadow-modal	**0 8px 32px rgba(30,58,110,0.18)**	Modal, dropdown, tooltip
--border-width	**1px solid #BFDBFE**	All card borders, input borders, table borders

SECTION 3: Antigravity UI Generation Prompt

How to use: Copy the prompt below in its entirety and paste it into Antigravity along with the attached PRD PDF. The prompt references the PRD for screen content and this document for the design system. Both must be provided together.

Master UI Prompt — Copy This Exactly

```
CONTEXT:
You are designing a production-grade web application for the Unified Grievance Intelligence
& Resolution Platform (UGIR) — a city-scale AI-powered civic complaint management system
for Indian municipalities. The attached PRD defines all screens, data flows, and logic.
This is a GovTech platform used daily by citizens, government officers, and city administrators.

DESIGN IDENTITY:
Theme: Civic Trust — Authoritative, Data-Dense, Accessible.
NOT playful. NOT startup-minimal. Think: the interface equivalent of a well-designed
government dashboard that citizens actually trust.
Aesthetic direction: Refined institutional. Clean grid. Dense but breathable.
Structured like a Bloomberg terminal — but for civic data.

FONT SYSTEM:
Display / Headings: DM Sans (Google Fonts)
Body / Data: IBM Plex Sans (Google Fonts)
Monospace / Code / Numbers: IBM Plex Mono (Google Fonts)
Never use: Inter, Roboto, Arial, or any system font.

COLOR SYSTEM (use ONLY these exact hex values):
  --color-navy:        #1E3A6E   /* Nav, headers, H1 backgrounds */
  --color-deep-navy:   #1B3A6B   /* Footer, overlays */
  --color-blue:        #2563EB   /* Primary buttons, active states, links */
  --color-steel:       #3B5FA0   /* H2/H3 headings, secondary UI */
  --color-accent:      #0EA5E9   /* Live indicators, hover on dark, chart secondary */
  --color-green:       #16A34A   /* Resolved, SLA met, success */
  --color-amber:       #D97706   /* Warning, SLA at risk, medium priority */
```

```
  --color-red:         #DC2626   /* Critical, breach, emergency, error */
  --color-bg:          #EFF6FF   /* Page background, card surface */
  --color-surface:     #DBEAFE   /* Info panels, selected rows, callouts
*/
  --color-border:      #BFDBFE   /* All borders, dividers */
  --color-alt-row:     #F8FAFC   /* Alternate table rows, input
backgrounds */
  --color-text:        #111827   /* All primary body text */
  --color-muted:       #6B7280   /* Captions, metadata, placeholders */
  --color-white:       #FFFFFF   /* Text/icon on dark surfaces */
  --color-code-bg:     #0F172A   /* Query blocks, terminal callouts */

SPACING & BORDER RADIUS:
  Border radius: sm=4px, md=8px, lg=12px, xl=16px
  Spacing scale: 4 / 8 / 16 / 24 / 40px
  Card shadow: 0 1px 3px rgba(0,0,0,0.08)
  Modal shadow: 0 8px 32px rgba(30,58,110,0.18)
  All borders: 1px solid #BFDBFE

SCREENS TO GENERATE (reference PRD for full spec):

SCREEN 1 — CITIZEN COMPLAINT FORM (PRD Page 1)
  - Top nav: #1E3A6E background, platform name in DM Sans bold white,
language selector
  - Form card: #FFFFFF surface, 8px radius, 1px #BFDBFE border
  - Fields: Complaint Type dropdown, Description textarea (15-word min
indicator),
    Location (Leaflet map pin + auto-detect button), Photo upload with
preview
  - Anonymous Mode toggle: teal pill toggle, labeled 'Whistleblower Mode'
  - Voice input button: mic icon, pulses #0EA5E9 when active
  - Submit button: #2563EB background, full-width, 'Submit Complaint' in
white DM Sans bold
  - Success state: tracking ID displayed in IBM Plex Mono, #16A34A border
card

SCREEN 2 — CITIZEN TRACKING DASHBOARD (PRD Page 7)
  - Status timeline: vertical stepper component, each step pill-colored
by status
    (pending=#6B7280, active=#2563EB, in_progress=#D97706,
escalated=#DC2626,
     resolved=#16A34A)
  - Live badge: pulsing #0EA5E9 dot labeled 'Live Updates'
  - Complaint card: category icon, description preview, cluster size ('47
others affected'),
    priority badge (color-coded 1–5), SLA countdown timer
  - Feedback section (post-resolution): 1–5 star rating, comment field,
re-open button
```

```
SCREEN 3 — OFFICER DASHBOARD (PRD Page 6)
  - Left sidebar: #1E3A6E, officer name, department, ward, active load vs
max (progress bar)
  - Ticket queue: cards sorted by priority. Each card has priority badge
(P5=red, P4=amber,
    P3=blue, P2-1=gray), category icon, location, cluster size, SLA
countdown
  - SLA countdown color: green (>4hr), amber (<2hr), red (<30min),
pulsing red (breached)
  - Ticket detail panel: full description, linked complaints count,
Leaflet map,
    AI classification reason tooltip, proof upload section
(before/after), action buttons
  - Stats sidebar widget: resolution rate, SLA compliance rate, avg
resolution time

SCREEN 4 — ADMIN DASHBOARD (PRD Page 8 & 9)
  - Top KPI row: 4 stat cards — Total Active Tickets, SLA Compliance %,
Escalated Tickets,
    Silent Crisis Wards. Each card uses IBM Plex Mono for the number.
  - Heatmap panel (full width): Mapbox GL JS map. Three layers visible
with legend:
    Red-amber gradient clusters (active complaints), grey pulsing zones
(silent crisis),
    faded green (resolved). Ward names labeled on hover.
  - SLA breach table: columns — Ticket ID, Category, Ward, Officer, Hours
Overdue,
    Priority. Rows color-coded: yellow=0-24hr, orange=24-72hr, red=72hr+.
  - Silent Crisis panel: list of flagged wards with silence_ratio,
population,
    complaint count, and recommended action buttons.
  - Department AATS score table: department name, score bar (0-100),
trend sparkline,
    color coding: red<40, amber 40-69, green 70+.

SCREEN 5 — AUDIT LOG VIEWER (PRD Page 10)
  - Full-width table: columns — Timestamp, Ticket ID, Actor Role, Action,
Old Value,
    New Value. Monospace timestamps in IBM Plex Mono.
  - Filter bar: date range picker, action type dropdown, role filter,
ticket ID search
  - Each row is read-only — no edit/delete controls visible
  - 'Export CSV' button: #2563EB outlined, top right
  - Immutability badge at top: lock icon + 'Append-only • Tamper-proof'
in #16A34A

GLOBAL UI RULES:
  - Navigation: persistent left sidebar on desktop (collapsed on mobile)
```

```
    Items: Dashboard, My Tickets, Heatmap, Audit Log, Settings
    Active item: #2563EB left border + light #DBEAFE background row
  - All modals: centered, 8px radius, #0F172A overlay at 60% opacity
  - Toast notifications: top-right, 340px wide, 4px left border in
semantic color,
    white background, auto-dismiss after 5 seconds
  - Empty states: centered illustration + descriptive text in #6B7280
  - Loading states: skeleton loaders in #DBEAFE animated shimmer
  - Tables: sticky header (#1E3A6E), alternating rows (#F8FAFC /
#FFFFFF),
    1px #BFDBFE borders, 8px cell padding
  - All primary buttons: #2563EB fill, white text, 8px radius, 16px
horizontal padding
  - All secondary buttons: #DBEAFE fill, #1E3A6E text, same radius
  - Danger buttons: #DC2626 fill, white text
  - Input fields: #FFFFFF background, 1px #BFDBFE border, 4px radius,
    focus ring: 2px #2563EB
  - Status badges: pill shape (4px radius), uppercase text 11px/700,
    white text on semantic color fill
  - No gradients on interactive elements. Gradients only on heatmap
overlays.
  - No drop shadows on text. Shadows only on cards and modals.

RESPONSIVE BEHAVIOUR:
  - Desktop (>1280px): full sidebar + main content + optional right panel
  - Tablet (768–1280px): collapsed sidebar (icon only) + main content
  - Mobile (<768px): bottom tab bar, full-screen panels, single column
forms

ACCESSIBILITY:
  - Minimum contrast ratio: 4.5:1 for all body text
  - All interactive elements have visible focus states (2px #2563EB ring)
  - Color alone never conveys status — always pair with icon or label
  - ARIA labels on all icon-only buttons

IMPORTANT: Do not use purple, pink, or orange gradients. Do not use
glassmorphism.
Do not use card blur/frosted effects. Do not use dark mode unless
building the
Audit Log screen specifically. The platform is light-mode first. Trust is
built
through clarity — not visual decoration.
```

Screen-by-Screen PRD Cross-Reference

SCREEN	PRD REFERENCE	KEY COMPONENTS

Citizen Complaint Form	PRD Page 1 (§1.2.1)	Multi-channel intake form, GPS map, voice input, anonymous toggle, photo upload
Citizen Tracking Dashboard	PRD Page 7 (§7.1–7.4)	Status stepper, Realtime live badge, cluster info, SLA countdown, feedback
Officer Dashboard	PRD Page 6 (§6.1–6.6)	Ticket queue, SLA timer, proof upload, GPS validation, action buttons
Admin Dashboard	PRD Pages 8–9 (§8.1–9.4)	KPI cards, Mapbox heatmap, SLA breach table, silent crisis panel, AATS scores
Audit Log Viewer	PRD Page 10 (§10.1–10.4)	Read-only table, filter bar, CSV export, immutability badge
Spam Review Panel	PRD Page 2 (§2.6–2.7)	Human review queue, spam confidence display, approve/reject actions
AI Classification View	PRD Page 3 (§3.6)	Category badge, severity, priority score breakdown, explainability tooltip
Deduplication Cluster View	PRD Page 4 (§4.3)	Master ticket card, linked complaints list, cluster map, merge confidence
Officer Assignment Panel	PRD Page 5 (§5.1–5.5)	Ward map, officer load bar, SLA tier display, escalation controls
Department AATS Scorecard	PRD Page 10 (§10.2)	Score bars, trend sparkline, component breakdown, 90-day history chart

END OF DESIGN BRIEF — Attach PRD PDF alongside this document when submitting to Antigravity.
